

haberdashery

Job Description

Graduate Designer (Paid fixed term internship)

Hours of work: 9.00 – 18.00
Place of work: Design District, Greenwich, London SE10

Haberdashery London is an award winning design studio & lighting brand now based in the new Design District in Greenwich. With the introduction of new product collections and growing recognition within the international lighting market we are expanding the design team within our Collection Department to meet the requirements of our customers and deliver future growth.

We are initially offering this role as a paid fixed term internship of 6 months, with the opportunity to convert to a full time role at the end of that time.

Key responsibilities will include:

Design and production

- Work with the sales team to produce custom product compositions to meet client requirements
- develop all required visuals and presentations to effectively communicate the greater design and its details within the guidelines of the haberdashery visual identity.
- ensure continuous development of haberdashery products from concept through to manufacture
- develop any necessary prototypes
- develop electrical, mechanical and software specifications and solutions.
- develop all solid models, assemblies and drawing files for suppliers according to the studio templates and best practice.
- work closely with suppliers to ensure all works are made according to mechanical, material, and finishing specifications.

General

- Ability to take direction and to interpret client/internal briefs
- Clear and professional written and oral communication

Project management

- Manage your time to ensure that your project is delivered on schedule and within time constraints.
- Manage your production budget to ensure that projects are delivered within their total costs budget.

- Obtain competitive quotes from relevant suppliers and research new suppliers.
- Ensure your projects are properly documented and communicated to the project team as well as the client.

Required experience / Technical requirements – these should be demonstrated in your portfolio:

Some experience in the following areas:

- Work experience as professional industrial / product designer - experience in high-end market would be a bonus.
- Experience using Rhino and Grasshopper. Experience with solid modelling software, Fusion 360 preferable (or similar, e.g. Inventor or Solidworks) - to make parts, assemblies and manufacturing drawings.
- good working knowledge of Adobe CC, MS Office (Excel), G-Suite (google mail and sheets, calendar etc.)
- Basic to intermediate electrical prototyping, wiring and layout would be beneficial
- Evidenced experience in mechanical design and design for manufacture would be beneficial
- Model making
- Knowledge of materials and finishes/processes
- Portfolio should demonstrate evidence of completed, built projects.

To apply, please send a cover letter, CV and portfolio (Important note: portfolio to be no longer than 25 pages). To jobs@haberdashery.com with the job title contained in the heading.

Salary dependant on experience, you must be able to work in the UK
